github.com/Rushil242 | Bengaluru, Karnataka

EDUCATION

BMSIT&M - Bengaluru, Karnataka Bachelor of Engineering – Artificial Intelligence & Machine Learning

TECHNICAL SKILLS

Languages & Frameworks: Python, Java, C, TensorFlow, Scikit-learn, Flask, Pandas, NumPy
Tools, Platforms & ML/AI: Git, GitHub, Google Cloud Platform, LSTM, XGBoost, K-means

WORK EXPERIENCE

Freelance AI Solutions Developer Jul 2025 – Aug 2025
MNP Software Solutions

- Provisioned WhatsApp Business API environment, integrating with client's business systems
- Designed automated campaign workflows for bulk broadcasts and customer-support replies
- Built AI-based job-search automation pipeline with daily job postings and email reports
- Achieved 30% operational efficiency improvement and 35% increase in engagement rate

PROJECTS

Cross-Modal Retail Forecasting System

- Developed a robust prediction model leveraging Time-Series Foundation Models (TSFM) to forecast multi-chain retail outlet sales
- Implemented an NLP-powered social media trend system to analyze public sentiment, providing actionable recommendations for optimal stock and logistics routing

City Electricity Demand Forecasting

- Developed fusion model (XGBoost + LSTM) to predict electricity usage demand from historical data
- Built interactive dashboard for electricity department to visualize predictions and optimize resource allocation

Crack IPL with Data Science

- Analyzed IPL deliveries (2007-2024) using NumPy, Pandas, and Matplotlib for data manipulation and visualization
- Generated insights on toss decisions, player performances, and team trends through comprehensive data analysis

RESEARCH WORK

TestPilot AI: Autonomous Web Application Testing Using LangGraph-Based Decision Making and Vector Memory
ICETEBEAS 2026 International Conference Apr 9-10, 2026
S.E.A College of Engineering & Technology, Bengaluru

- Presented research paper at the International Conference on Emerging Trends in Green Engineering, Business Excellence & Applied Sciences

CERTIFICATIONS

Supervised Machine Learning: Regression & Classification – DeepLearning.AI, Stanford [Verify: EJ0EKXU7YRII](#)
Python for Data Science, AI & Development – IBM [Verify: B685MIKHEEUK](#)

LEADERSHIP & ACTIVITIES

- GDG on Campus – ML Community Vice Lead** (Sep 2025 – Present): Organized and hosted hands-on workshop "Build with AI" covering Gemini API integration and web hosting
- Technical Event Coordinator – Code Pirates** (2024): Conducted treasure hunt coding competition with programming puzzles during college fest, managing event from planning to execution
